## 3<sup>rd</sup> INTERNATIONAL CONFERENCE on Sustainable Solid Waste Management

2-4 July 2015

Organised by:

Municipality  
of Tinos

National  
Technical  
University of  
Athens

Università  
degli studi di  
Verona

Centre for  
Research &  
Technology  
Hellas

The conference is organized in the framework of the ISWM-TINOS project which is co-financed by the LIFE+ Programme of the European Commission

## Objective

The Conference aims to address the significant issue of **sustainable solid waste management** through the promotion of safe practices & effective technologies. The Conference focuses mainly on modern solid waste technologies. It aims to stimulate the interest of scientists and citizens and inform them about the latest developments in the field of **municipal solid waste management**. **Separation at source, Biological Treatment, the treatment at central facilities, waste prevention & separation at source** with emphasis on **biowaste, integrated waste management in islands** and generally **isolated areas** also constitute priority subjects. Special attention will be drawn on the challenges of the Waste Framework Directive & the products produced of solid waste, such as: biofuels, compost, materials, etc. The Conference will provide an opportunity to bring together scientists & professionals from government departments, Municipalities, private institutions, research & education institutions, being a forum for the exchange of the most recent ideas, techniques & experiences in all areas of solid waste management. **A special workshop will also focus on the waste management problems of the Local Authorities & Municipalities.**

## Conference Topics

Topics of interest include but are not limited to:

- Source separation schemes for solid waste
- Biological treatment techniques (composting & anaerobic digestion)
- Recycling
- EU policies and strategies for solid waste management
- Solid waste prevention techniques
- Household solid waste treatment technologies
- Socio-economic issues related to solid waste management
- Household solid waste collection techniques
- Integrated management in islands & other isolated areas
- Characterization of waste residues
- Energy from Waste (biomass, oil sludge, syngas, etc.)
- Decision support tools in the waste management field

## Call for Papers

Authors are invited to submit an extended **abstract** of maximum 2 pages in English, including figures and tables (as MS Word file). The abstracts can be submitted electronically via email no later than the **31<sup>st</sup> January 2015** to [konmoust@central.ntua.gr](mailto:konmoust@central.ntua.gr).

Abstracts will be accepted based on quality, originality and relevance to the conference themes. All accepted papers will be published as the conference proceedings (CD ROM format), while the best papers after evaluation will be published in scientific journals. A Special Issue of Waste and Biomass Valorization (Springer Editions) has already been announced.

We look forward to receiving your paper and we hope to see you actively taking part in the **TINOS 2015** Conference. # Conference Country: Greece

**Greece** is a country with a particularly rich history and famous personalities. It is a Country of great interests and diverse cultures, influenced by its location, at the junction between the East and the West and by the many occupations endured by the Greek people throughout history.

**Greece** has much to offer to the visitors: paradisiac landscapes, hundreds of charming islands, amazing sandy beaches in crystal waters, a passionate history.

**Tinos** is a very interesting island to visit in Aegean Sea. One can enjoy its unspoiled architecture, its picturesque villages, its beautiful beaches and its traditional culture and way of living that has been going on through the years.

## Conference Venue

The **TINOS 2015** Conference will be held at the:

**Museum of Marble Crafts**  
105 58, Pyrgos, Tinos Island,  
Cyclades - Greece
